

Driver & Passenger Experience

Solutions / Driver & Passenger Experience

Create a unique onboard experience

Passengers needs have drastically changed, the new generations ask for a more comfortable and connected journey. Drivers must benefit from a comfortable workplace for more efficiency. We look forward to inspire your end-user's journey by responding to their expectations. Tailor your vehicle with increased thermal comfort, connectivity and our Experience by Design solutions.

Thermal Comfort

Provide thermal comfort with our selected products. They can be combined for a premium comfort. Discover also our dark tinted glass solution, Venus®.

Thermocontrol® Reflecting

Laminated glazing solution with a specific interlayer that reflects IR rays.

ComfortSky®

New glass product combining heat and cold control, for every season!

Thermocontrol® Absorbing

Reduce the transmission of direct solar energy by absorbing infrared rays thanks to a specific interlayer.

Climavit®

Double glazing for the best insulation and comfort

Connectivity

Today, social networking and online entertainment is a part of everyday life.

Saint-Gobain Sekurit Transport has developed different solutions so end-users can stay connected during the journey.

Discover GSM Friendly and Tennafit®.

Acoustic Comfort

Reduce external noise and discover the feeling of calmness while working or traveling.

Discover both of our acoustic solutions: Dbcontrol® and Climavit® DGU.

Experience by Design

Saint-Gobain Sekurit Transport enhances your end-user's comfort so that drivers have a pleasant workplace and passengers enjoy the journey.
